PROFESSIONAL SUMMARY

IT operations, technical support, and security professional with 7+ years of experience supporting users, endpoint fleets, workplace systems, and cybersecurity controls. Experienced in Jamf Pro/Jamf Now, macOS and iOS/iPadOS support, Google Workspace, Microsoft 365, endpoint protection, vulnerability management, network troubleshooting, onboarding/offboarding, and audit readiness. Known for hands-on troubleshooting, clear user communication, cross-team coordination, and following technical issues through to resolution.

CORE SKILLS

IT Operations & Support: Service desk and end-user support; incident and ticket lifecycle; queue prioritization; escalation handling; root-cause troubleshooting; documentation; user communications

Endpoint & Apple Technologies: Jamf Pro and Jamf Now; macOS; iOS/iPadOS; device enrollment and configuration; configuration profiles; application deployment; patching; endpoint compliance

Platforms & Identity: Google Workspace; Microsoft 365/O365; Slack Enterprise; Active Directory; user lifecycle administration; onboarding/offboarding; access permissions; SSO and application integrations; 1Password

Networking & Connectivity: FortiGate 80E; UniFi switches and access points; VPN and remote access; Zscaler; NordLayer; DNS/DHCP; LAN/Wi-Fi troubleshooting; PPSK wireless; connectivity support

Security & Compliance: SentinelOne EDR; Bitdefender; Qualys vulnerability management; SIEM deployment; incident response; malware defense; SOC 2 and HIPAA audit support; security policies and technical controls

Service Management & Coordination: ServiceNow and ticketing workflows; asset and inventory coordination; hardware/software troubleshooting; vendor and repair handoffs; SLA awareness; team guidance; stakeholder updates

PROFESSIONAL EXPERIENCE

IT SECURITY ANALYST | Mar 2023 – May 2025

CloudKettle Inc. | *Halifax, Nova Scotia, Canada*

- Owned security-focused IT operations and controls in a Google Workspace environment, supporting employee access, endpoint security, SaaS administration, and secure connectivity.
- Administered endpoint protection and vulnerability-management workflows using SentinelOne and Qualys; reviewed findings, coordinated remediation, and supported incident response.
- Supported SOC 2 and HIPAA audit readiness by maintaining technical documentation and helping enforce security controls across corporate systems.
- Helped lead migration of corporate endpoints from Bitdefender to SentinelOne; the existing resume records a 40% improvement in threat detection.
- Contributed to technology and security transitions, including LastPass-to-1Password and NordLayer-to-Zscaler changes.

IT COORDINATOR | Nov 2020 – Mar 2023

CloudKettle Inc. | *Halifax, Nova Scotia, Canada*

- Coordinated day-to-day IT operations, employee technology, endpoint management, workplace systems, and access administration.
- Led rollout and administration of Jamf for macOS/iOS devices, including setup, configuration, application deployment, patching, and security controls.
- Managed onboarding/offboarding and user lifecycle activities across Google Workspace, Slack, and related SaaS applications.
- Provided hands-on support for hardware/software, macOS endpoints, VPN, LAN/Wi-Fi, DNS/DHCP, and workplace applications.
- Managed FortiGate firewall rules and UniFi network infrastructure, including wireless security/PPSK deployment and connectivity troubleshooting.
- Coordinated with colleagues and cross-functional stakeholders, provided technical guidance, maintained documentation, and supported IT integration after a company acquisition.

TECHNICAL SUPPORT CONSULTANT | Nov 2017 – Nov 2020

Rogers Communications | *Canada*

- Delivered customer-facing technical support for hardware, software, internet connectivity, VPNs, and digital products through phone, chat, email, and remote troubleshooting tools.
- Managed the Customer Follow-up ticket queue and acted as an escalation point for complex or long-running cases.
- Used structured troubleshooting and root-cause analysis to drive issues toward resolution while documenting actions and outcomes.
- Provided floor support and mentoring for new hires and shared troubleshooting techniques and support guides.

SELECTED TECHNICAL PROJECTS

SIEM Implementation: Led full-cycle deployment of a SIEM solution on Dell PowerEdge servers to support centralized security monitoring and threat detection.

Endpoint Security Migration: Led migration from Bitdefender to SentinelOne across corporate endpoints; the existing resume records a 40% improvement in threat detection.

Post-Acquisition IT Integration: Helped maintain infrastructure continuity, review security assets, and integrate IT operations into the parent-company environment.

Physical Security Integration: Installed and managed the Kantech Access Control System and maintained access credentials.

Identity & Secure Access: Contributed to transitions from LastPass to 1Password and NordLayer to Zscaler.

EDUCATION & CERTIFICATIONS

Master of Engineering (Internetworking) | Dalhousie University, Halifax, Nova Scotia, Canada

Certifications: ISC2 Certified in Cybersecurity (CC) | GIAC Foundational Cybersecurity Technologies (GFACT)
